- 3:00 P.M.

**Lunch**

- Bring a packed lunch

**Dress**

- Tennis shoes and comfy clothes

**Money**

- \$3.50 and extra for the gift shop

## WHAT OUR CLASS HAS BEEN LEARNING!

- THE LIFE CYCLE OF VARIOUS ANIMALS.
- BUTTERFLYS, FROGS AND PLANTS
- THE SEQUENCE FOR

As a group, I believe it would be a great learning experience for the students to go to the Cleveland Metroparks Zoo which covers standards 3rd graders are required to know. The students will be able to explore the zoo with a teacher or chaperone, then learn more about the frog's life cycle in the rain forest exhibit.

## THE LIFE CYCLE OF A FROG

On our field trip to the zoo, our class will be spending the majority of the time learning about the frog's life cycle in the rain forest exhibit. Students will be able to choose to look at the frogs close up.

The frog we will be learning about is the Tomato Frog.
